### CRIMES AND CASUALTIES.

**A Niece of Ralston Makes Two Attempts at Suicide.**

CHICAGO, July 13.—Last evening Lizzie Robinson, a niece of Ralston, the deceased San Francisco banker, made the second attempt at suicide. Early last night she was found lying in the basement of the building at 109 South Clark street, almost inanimate, with a bottle partially filled with laudanum clinched tightly in her hands, and when removed to the hospital it was supposed her case admitted of no remedy. She revived, however, and at 2 o'clock this morning, though not yet out of danger, the chances were said to be in favor of her recovery. She is about 40 years of age, and for the past five years has been an inhabitant of Clark street. For the past two years she has lived at 204 South Clark street, a place, until lately, frequented by women of the town.

**Horrible Quadruple Crime by a Madman.**

DWIGHT, Ill., July 13.—Andrew White, a wealthy farmer, living near this place, was recently placed in a private insane asylum owing to the impairment of his mental faculties caused by too close attention to the details of his business. He there became strangely possessed with the hallucination that his wife and children desired to rob him of his property. He escaped from his retreat a few days ago and proceeded to his home. Arriving there in the middle of the night, he watched till morning, when he called to his wife to come and welcome him. The wife and two children, aged 10 and 12 years respectively, came at once. He allowed each to caress him and then drew a revolver, shot and instantly killed his wife and followed this by murdering his two children. He made the tragedy complete by killing himself.

**Another Shocking Accident in a Stone Quarry.**

LEMONT, Ill., July 13.—The Eureka stone quarry, four miles south of this city, was the scene of another tragedy yesterday afternoon, by the falling of the high derrick while raising a block of stone weighing three tons. The supporting wire guy ropes slipped, causing the derrick to fall among the crowd of fifty workmen beneath it, four of whom were caught directly under the timbers and instantly killed.

**The Indiana University Destroyed by Fire.**

BLOOMINGTON, Indiana, July 13.—Last night the new department of the Indiana University was discovered to be on fire. The laboratory was soon in flames, and shortly afterwards the library and museum. The latter contained the famous Owen collection, Dr. Jordan's collection of fishes. The library had 15,000 volumes. The building was entirely destroyed. The fire caught by lightning on the telephone wires. Loss, $100,000; insurance, $30,000.

**Death by a Powder Explosion.**

WILMINGTON, July 13.—Twenty-five hundred pounds of powder exploded in the press-room of the Dupont Powder Works this morning. Thomas Pearl, the foreman of the press room, and Patrick Haley, a laborer, were killed. Alexander Billingsly, another laborer, was slightly injured.

### BEYOND THE ATLANTIC.

**The Count De Chambord's End Approaching.**

LONDON, July 13.—A telegram from Vienna, dated one o'clock this morning, says that Count de Chambord is unconscious and the end is approaching.

**A Russian City Burning.**

ST. PETERSBURG, July 13.—A disdatch from the town of Rastor, on the Don, in the Government of Nekator Nostir, says that a large fire is raging there and the whole town is menaced. Rastor has a population of 45,000.

**The Second Suez Canal.**

PARIS, July 13.—The directors of the Suez Canal Company unanimously approved of the agreement relative to a second Suez Canal arrived at between De Lesseps and the British Government.

LONDON, July 13.—The newspapers here say that they believe that the acceptance of the argeement entered into by the Government with De Lesseps will not be forced upon Parliament.

**Tonquin in Anarchy.**

LONDON, July 13.—A dispatch from Hong Kong, dated the 12th instant, reports Tonquin in a state of anarchy. The French have captured and hanged many marauders, bands of whom have hovered about and fired upon foreigners. Nevertheless the latter are still fired upon nightly.

### GENERAL DISPATCHES.

**The Insidious Rock and Rye Makes a Point.**

CHICAGO, July 13.—A Washington special says: "Administration," as Commissioner Evans calls his office, is in another pickle. Rock and rye has been manufactured for years and sold under the proprietary stamps. Commissioner Evans has now decided that it is a beverage, consequently the proper tax should have been that of wholesale dealers in liquors, that is, $200 a year. The difference between these sums will be very great, and the opinion is expressed by experts in Commissioners Evans' office that this difference will, under recent decisions, prove a valid claim against the Government.

**Orange Judd Assigns.**

NEW YORK, July 13.—Orange Judd, the publisher, assigned for the benefit of his creditors. His debts are individual and do not affect the Orange Judd Publishing Company.

**A Wife Murderer.**

ELLSWORTH, Kan., July 13.—A worthless fellow named Gaines stabbed his wife four times with a butcher knife last night, because she refused to live with him. Physicians say the woman can't recover. Officers are pursuing the murderer.

**Steamer "Niagara" Burned at Sea.**

HAVANA, July 13.—An English steamer has just arrived with the intelligence that the steamer Niagara, of the New York and Cuba Mail Steamship line, and which left New York on the 7th inst. for this port, has been burnt off the coast of Florida. The passengers were all saved and brought here by the above-mentioned English steamer.

**Masonic Promotions.**

SAN FRANCISCO, July 13—The Masonic Veteran Association of the Pacific coast last evening elected as honorary members of the association for eminent services rendered Freemasonry: Hon. John Webster, St. John's Lodge, Past Junoir Grand Warden, Washington Territory; R. H. Taylor, Past Grand Secretary, Past Grand Orator, Chairman of the Committee of Foreign Correspondence, Grand Lodge of Nevada; W. T. Wright, Grand Master of Oregon; F. S. Herlock Graham, Provincial Grand Master of New Zealand.

**The New Governor-General.**

LONDON, July 13.—The Marquis of Lansdowne sails in October for Canada to assume the duties of Governor-General.

NOBODY CAN DENY.
Consumers can depend upon the NEW ENGLAND BAKING POWDER as being exactly as represented. It is Cream of Tartar and Bicarbonate of Soda of perfect purity, scientifically combined; NOTHING ELSE.
The price of the NEW ENGLAND BAKING POWDER justifies the use of the very best materials. Consumers pay a fair price for the best and get it.
It is self-evident that Baking Powders represented to be composed of the same materials as the NEW ENGLAND, and which are sold to dealers at less than the pure materials themselves are worth, cannot be pure.
The large demand for NEW ENGLAND BAKING POWDER, and consequent falling off in sales of adulterated and inferior powders, has developed a spitefulness on the part of some manufacturers and dealers. Finding that the quality of the NEW ENGLAND cannot be successfully attacked, new brands and close imitations, represented to be as good, are put on the market. With these they endeavor to tempt dealers with low prices, and thus impose on consumers.
See that the name NEWTON BROS. & Co. is on every can. jy1-2taw-3m

[Western Associated Press Night Report.]

### READY TO SURRENDER.

**Eighty Hostile Chiracahuas Waiting for an Escort to San Carlos.**

WILLCOX, A. T., July 13.—Linderman arrived to-day from San Bernardino Cañon. From seventy-five to eighty hostile Chiricahuas are at that place waiting to surrender. They are committing no depredations, but are waiting an escort to the reservation. Capt. Rafferty, with one troop of cavalry, left Fort Bowie yesterday to escort the surrendered hostiles. He will probably arrive with them in three days. Linderman has an extensive ranch near San Bernardino. He is a responsible, wealthy cattle man. He reports the Indians all supplied with arms and ammunition, and large herds of horses, mules, and cattle—presumably the result of raids in Sonora and Chihuahua. The hostiles are well posted in regard to the movements of the American authorities. They would not consent to surrender until a promise was given to change reservation affairs. The past experience of Indian agents dictated this course. There is reason to believe, if control had been given exclusively to the Indian Department, the Indians would have bolted, murdering many whites.

**Reports from Sonora of New Apache Outrages.**

TOMBSTONE, July 13.—Reports from Sonora, Mexico, are to the effect that the Apaches are raiding the Districts of Montezumas and Panhariha, committing murder, stealing cattle, etc. The Epitaph special from Oposure states that a band of twenty savages attacked Haciedenda Parepia, sixty miles south of Oposura, killing three meen. Intelligence was brought to Col. Bandola, stationed here, who started in pursuit with thirty Mexican troops. He found the bodies of the three men and kept on the trail. It is positively known that twelve men were murdered by the Apaches in the neighborhood of Oposura since Crook took their families from the Sierra Madres.

### SAN FRANCISCO.

**New Revenue Civil Service Board for the Coast.**

SAN FRANCISCO, July 13.—The following Custom House officers to-day received a telegram from Washington, informing them that they had been appointed to constitute a Civil Service Board of Examiners: C. C. Lovitt, N. B. Hoyt, J. Frank Miller, H. F. Cooper and John Patterson.

AN EX-POLICE OFFICER'S TRAGIC END.

Thomas C. Coburn, an ex-police officer, discharged from the force about two weeks ago for drunkenness, fell down stairs this morning in his house and broke his neck. He was married and leaves a family.

PROPERTY LOSSES ON THE COAST.

The Board of Underwriters gives the actual loss of property in this city for the first six months of 1881 at over $500,000, while for the entire coast it reaches nearly $1,900,000.

ANOTHER SUIT AGAINST THE RAILROAD.

Rudolph Armstrong and Axel Deremie filed a complaint against the Central Pacific Railroad Company to recover $35,000 damages for alleged extortionate freight charges.

**The Suez Canal Scheme.**

LONDON, July 13.—In the Commons this afternoon Childers, Chancellor of the Exchequer, in reply to Sir Stafford Northcote, said the Suez Canal agreement would be submitted to the House by a motion made in the Commons that the sum to be loaned the Suez Canal Company by the Government for building a new canal be charged on the consolidated fund. Northcote gave notice when such a motion was made he would ask the sense of the House on the agreement. This announcement was received with cheers. William Fowler, a Liberal, spoke in opposition to the canal scheme.

LONDON, July 13.—At a crowded meeting of the merchants and shipowners at Lloyds resolutions were passed strongly objecting to the agreement between De Lesseps and the Government on financial, commercial and political grounds. The Lord Mayor of London was asked to call a meeting that further protest against the agreement can be made. The Chancellor of the Exchequer, in response to a deputation, stated that the Government had made the best bargain possible with DeLesseps. They were buyers from not over-anxious sellers, and had obtained solid avantages from British owners and landsmen.

**New Hampshire Senatorship.**

CONCORD, N. H., July 13.—Twenty-third joint ballot for United States Senator: whole number, 312; necessary to a choice, 157. William S. Ladd, 1; John D. Lyon, 1, Charles H. Burns, 1; Chester B. Jordan 1; Samuel C. Eastman, 3; Benj. T. Prescott, 2; Daniel Bernard, 4; Walter Harriman, 4; James B. H. Gillinger, 4; Orin E. More, 12; Jeremiah Smith, 13; Aaron F. Stevens, 15; Gilman Marston, 23; Mason W. Tappan, 30; James F. Briggs, 34; Wm. E. Chandler, 52; Harry Bingham, 113.

**News from Peru.**

PANAMA, July 13.—Great satisfaction is felt at the rapid pacific march of Peru and the withdrawal of the Chilians. Everybody is heartily sick of the whole affair, with the exception of the Montsones, and the advent of peace is warmly welcomed. Several very important towns in the north have been evacuated and are now in the hands of the authorities appointed by Iglesias, while in the interior and along the coast the Peruvian flag is flying in places where it has not been seen for months past.

**Salt Lake News.**

SALT LAKE, July 13.—To-night the members of the Colorado Press Association, to the number of twenty, accompanied by their wives and sweethearts, arrived in the city over the Denver and Rio Grande Railroad. They propose to remain in Salt Lake till Monday.

The Utah Knights Templar are preparing to visit San Francisco during the Conclave.

**News From Madagascar.**

PARIS, July 13.—The French Consul at Zanzibar has telegraphed to the Government that he has knowledge of the circumstances in Tamalive, Madagascar, complained of by the Englisn Government, and has requested that the report on the maiter be sent to him.

**Count de Chambord.**

PARIS, July 13.—At 2:20 A. M. a dispatch from Frohsdorff says the Count de Chambord became delirious last night and the death agony appeared. He had not opened his eyes since noon, He has been several times in a state of syncope.

**Cholera in Egypt.**

LONDON, July 13.—During the twenty-four hours ended at 8 o'clock this morning there were twenty-five deaths from cholera at Damietta, thirty-one at Mansurah, twenty-seven at Samaroud and four at Sherbin. There were three deaths at Malta.

**A Pioneer Gone.**

SAN JOSE, July 13.—Cory Rubles, a pioneer of '49, one of the best known citizens in this county, died at his residence in Santa Clara last night, aged 75 years.

### THE STATE AND THE COAST.

Diphtheria is quite common in Oakland at the present time. The disease is particularly prevalent among young children.

The rush of visitors to the lakes continues unabated. An average of from 15 to 25 daily go to Tahoe.

A party while out boating on Donner Lake last Wednesday, discovered two large fresh-water oysters near Echo Rock. Fresh-water clams are said to abound in Donner creek.

Red Bluff boasts of a genuine haunted house. The ghostly tenant is the spirit of a courtesan, one Hattie Stewart, who lately died there. Scores of people claim to have seen the ghost.

E. Lighton lost a foot in a threshing machine near Redwood City, San Mateo county, Monday.

It is a somewhat singular coincidence that of the number of white children in Sonoma county between the ages of five and seventeen years, viz; 7512, 3756 are boys and exactly the same number girls.

The Visalia Times says Kern county is having a water war. Haggin & Carr having shut off the water in the Emigdic creek, the settlers below are suffering for water for domestic uses. It is reported that Haggin & Carr's hired men have been armed, and will prevent the settlers taking any share of the desired element.

Mr. James Deveney, of Colusa county, this year harvested 1300 sacks of wheat from eighty acres of land. At $2.50 a sack—a reasonable estimate—this would give a yield of $40.62½ an acre, which is pretty remunerative farming.

Talking about old folks traveling, A. J. Smith's father-in-law, Mr. Wheeler, 84 years old, came in on horseback the other day from his home in Idaho, 600 miles away. When he gets his visit out he is going back the same way.—[Reno Gazette.

C. L. Beach, of Orange, has sold a million rooted grape vines of the White Muscat variety to the Government of Sonora to be planted between Hermosillo and Guaymas. This will plant about 1500 acres.

Fresh figs have been in the Oakland markets for more than three weeks.

In San Francisco Mexican dollars are quoted at 88@88½ cents.

Sacramento is to have another added to her list of weekly papers in the publication of the State Prohibitionist, to be conducted by Messrs. Parker & Gregg.

The Oceanic left San Francisco Tuesday afternoon for Hongkong, taking about 150 Chinamen provided with return certificates.

Little or no grain has been cut between Vallejo and Napa, and most farmers have not gathered their hay crop.

The Chico Record tells of a handsome young gentleman of that place, just old enough to father a slender blonde moustache, who has fallen in love with a Digger Indian girl, who has dried fish and gathered acorns for seventeen summers. She is as unlovely in form and features as most of her tribe, but the young man avows his determination to marry her and take her back to his old home in Ohio.

The springs and other sources of water are rapidly failing at San Luis Obispo, and the water company announces that the most rigid economy must be used to carry the supply through the season.

**Sad Accident in Ventura County.**

A YOUNG MAN OF DOWNEY MANGLED AND KILLED IN A THRASHING MACHINE.

Special Correspondence of the TIMES.]

SPRINGVILLE, Cal., July 13.—A very sad accident occurred near here yesterday. A young man by the name of Archie Ragland, whose home is near Downey, was thrown into the cylinder of a thrashing machine. His right leg below the knee was mashed to a jelly. It was a horrible sight. He suffered intense pain and died about 5 P. M. All that could be done for him was done. Dr. C. L. Bard, of San Buenaventura, was with him. It will be sad for his mother when she learns the fate of her son, who had just started in life. She has the sympathy of our entire neighborhood.

A. S. CLARK, P. M.

**A Police Episode.**

Night before last a man claiming to be from Arizona was engaged in abusing and insulting everybody who passed him on Los Angeles street. The matter was reported at police headquarters and an officer detailed to arrest him. On the arrival of the officer the man resisted him, forcing the policeman to use his club. A number of bystanders were indignant, but it was simply a question whether this bad man from Arizona should insult passersby or whether he should be put in jail. The latter was preferable.

**A "Little Fuss."**

It appears that one occurred in the 38s Juniors, which has "busted" the company. One side of the story is officially told as follows: Last night at the meeting of 38s Juniors there was a little fuss between the American and Spanish boys, which resulted in the disbanding of the company. We hope that the next torch boys they get will act in better manners than all the American torch boys. Orders by the

Foreman of 38s Juniors.

**The Hide Business.**

Messrs. H. Newmark & Co. to-day will ship a carload of hides to New York. The transactions of this firm in the hide business are simply enormous. Day after day and week after week carloads of hides are being shipped East by this enterprising firm, and still the Eastern demand continues.

**The Dog Pound.**

The dog pound, which is now situated in the bed of the river, at the foot of First street, is a subject of apprehension to many living in that vicinity. Dogs are taken there and a few are redeemed, but the remainder are never seen. The question is, What do the keepers do with them? To bury them in the bed of the river would be an outrage, yet there seems to be no other way to dispose of them.

**The Coming Camp Meeting.**

In the vicinity of Compton the people are making strenuous exertions for the success of the coming camp meeting near that town. The spot selected is one of the most beautiful in the county, and in the shady bowers prepared and amid the quiet pastures of that section it would seem that there would be sufficient inspiration for the devotional mind.

Poison does its work more surely than does the bullet, as was evidenced yesterday, when the squirel-poison man's bullet missed its aim. If he took a contract to shoot squirrels he would make a poor living. If he has any enemies he should give them poison and not try lead.

Mr. S. J. Fleming, of the newspaper guild, arrives this morning from Las Vegas, New Mexico, to take up his abode in Los Angeles.

**Killed by Lightning.**

OMAHA, Neb. July 13.—John McFadden, a teamster, was killed by lightning this morning, while hauling a load of lumber to the northern part of the city.

## WITH SUPPLEMENT.

SATURDAY, JULY 14, 1883.

### SENSATIONAL JOURNALISM.

Sensational journalism is a thing to be deplored. It is disreputable; it is degrading. It caters to immorality, to a morbid curiosity and the public love of scandal. It invades the sanctity of the home life, and interferes with matters with which the public has no business whatever. Character is assailed upon the slightest suspicion, and innocent people are made to suffer. There is nothing held sacred that opens the slightest loophole for assault, if by assailing it the sensational press can furnish something to minister to a morbid curiosity or a diseased love for excitement. The choice and delicate bit of scandal that the journals of Chicago have been mouthing seems to have its foundations mostly in the suspicions of the reporters of that city. But their hunger for gossip has driven the keen blade of sorrow into many innocent hearts. The kernel of the whole matter is simply that there was a suspicion that the relations of Algernon Sartoris—the English husband of Nellie Grant—with Mrs. Bush, were not what they should be. What mattered it that these reflections upon her husband might cast a dark shadow over the happiness of his young wife? A pure and noble woman though she be, that was not sufficient to make the scandal-mongers of the press respect her sufficiently to prevent them from pointing their pencils with suspicions and spreading the scandal abroad for the delectation of their readers.

The whole fact of the matter seems to be that Mr. Sartoris voyaged on the same steamer from England with Mr. and Mrs. Bush. Mrs. Bush was young, handsome and attractive, and Mr. Sartoris showed her various courtesies and attentions, such as travelers are apt to extend to strangers whom they find pleasing and agreeable. Business called him to Chicago, and there he renewed his acquaintance, calling once upon the lady, without any show of secrecy, as he did also at Milwaukee. Mrs. Bush is a very beautiful woman and much younger than her husband, and so there is the quick leap to the conclusion that there must be something wrong between her and the Englishman. His indignant denials and earnest protestations are all useless now. The great dailies of Chicago are full of the discussion of the matter, and rumor, with her thousand tongues, adds something daily upon which a morbid curiosity may feed. Such things are a blot upon journalism, and when reporters have nothing better to do than to fish for scandal and wallow in all the nastiness and filth that idle suspicions create, they had better turn their attention to some other calling, and not stand as a libel upon the spirit and purpose of legitimate journalism.

THE Alta is authority for the statement that hundreds of Californians who went to Oregon and Washington Territory for homes have returned, not because there are not grand openings in the Northwest, but because they found nothing desirable in the rough hard life of the frontiersman. The opportunities for accumulating a competency in California are as good as any offered in the Northwest, and the settler here is not called upon to encounter any of the privations and hardships that he must necessarily meet there. In the fruit districts of California the settler can make a beginning with a small amount of ready money, and health, with a strong arm and persistent effort, will do the rest. There is no reason why a man should not succeed in this State unless it be that he won't succeed anywhere. With the profit realized at present on wise investments in orchards and vineyards in California, they pay better than general farming and grain-growing in the Territories.

THE gathering of the Chautauqua Assembly at Pacific Grove Retreat, Monterey, is large and enthusiastic. It is stated that there are over fourteen hundred Chautauquan students in the ranks upon the Pacific coast, and new members are being added daily, showing that California is keeping pace in this progressive movement with the other and more Eastern States, and is not behind, in the Home College curriculum, the great educational centers beyond the Rockies.

OF the mighty workings of steam agencies in the civilization of the nineteenth century, we find a suggestion in the estimate that over one-half of the 8,000,000 tons annually mined is used for generating steam.

WE surrender, this morning, large space to "Letters from the People," who are wont to come to the TIMES for a hearing.

THERE is a sentiment growing up in our midst, begotten of the many murders and attempts at murder, that a vigilance committee should be organized to take a hand in the meting out of proper punishment for those who commit crimes. The necessity for the formation of such an organization would not be creditable to Los Angeles, but, all the same, the people would be justified in protecting themselves and the public peace if the lawful authorities continue to fail in their duty, as some of them have been doing.

THE Index, the Boston infidel paper, abuses Republican journals, and rushes vigorously to the championship of Judge Hoadly. The Cincinnati Enquirer says this "does not help Judge Hoadly," intimating that the less said about the Judge's anti-religious zeal the better for his candidacy.

### MEN AND WOMEN.

W. J. Madden and family, of Smartville, have left for Los Angeles. Mr. Madden, who was late Superintendent of the Golden Gate Mine at Smartsville, is going into mercantile business in Los Angeles.—[Record-Union.

Miss Kate Sanborn, who for three years has filled the chair of literature at Smith College, Massachusetts, has resigned her position on account of the increasing demands of her literary work. Her father, Professor E. D. Sanborn, is in failing health.

Marco A. Soto, President of the Republic of Hondurus, is on his way to Washington from San Francisco, with a view of establishing a reciprocity treaty with the United States.

David Davis, since marrying and settling down in Bloomington, has conceived a great fancy for flute music. He used to play a flute quite well when a young man, and has now returned to the pastime. Persons passing his house of an evening now catch a glimpse of him at a darkened window evoking soft, melancholy strains from an elaborate flute, and are reminded of Old Pan.

Congressman-elect Charles A. Sumner writes a letter from Liverpool to the San Francisco Examiner, in which he makes the astounding discovery that the people there are very much like our own. Sumner always did delight in sensational surprises.

### POLITICAL NOTES.

There seems to be quite a similarity between Lilian Russell, the actress, and the Democratic party in keeping or not keeping their contracts. Unfortunately the only point of difference is, the Democratic party hasn't fled to Europe.—[Rochester Post-Express.

The reason that Harvard would not make Butler an LL.D. was because they were afraid he would doctor the laws so that none but Democrats could vote.—[Philadelphia News.

The Boston Advertiser says that "the political schemers are turning things upside down in California to make the State surely Democratic next year." That is about the right measure of the state of affairs out here—[Record-Union.

Judging by the way in which they trim their sails to every changing breeze, the politicians of the nation would rather be President than be right.

The San Francisco Journal of Commerce has an editorial on "Two Tariffs." It should have continued the heading, "Or, the Democratic Conundrum."

If all the departments of the Government make as good a showing as the Treasury during the fiscal year just closed, the Republican party will not be called upon during the Presidential canvass next year to meet the charge of wastefulness in conducting the operations of the General Government. A correspondent of the New York Commercial Advertiser says that of the appropriation of $5,500,000 to collect the customs and pay the expenses of the clerical forces employed in the custom houses, nearly $1,000,000 remains unexpended, so carefully and judiciously has Secretary Folger managed the expenditures. He has caused the custom houses to be managed on purely business principles, and stopped leaks everywhere, until customs officials have, in many instances, complained that he was not liberal enough, but exacted too much work from the employes. In the Treasury Department proper about $60,000 of the appropriation for clerks remains unused, and will go back into the Treasury.

**A New Party Boom.**
From the Ohio State Journal.]

Another new party is born. This interesting event is heralded in a circular emanating from Philadelphia, and patriotically addressed "to all citizens loyal to their country," which declares that the issues between the Republican and Democratic parties are "merely domestic questions that are settling themselves," and energetically lauds the platform of the new-born party, which is herewith given:

First—Time and circumstances to settle domestic questions.

Second—Immediate preparation for the inevitable third war with England.

It will be seen that the fools are by no means all dead yet, and that the Quaker City seems to be unduly afflicted by possessing more than her proper proportion.

**Women Lawyers.**
From the Brooklyn Eagle.]

An exchange argues that women can never become great lawyers because they wear corsets. The objection is entirely superficial; it is not even skin-deep. The true reason why women cannot become great lawyers is that they are always a law unto themselves.

**Extremely Rare.**
New York Tribune.

Mr. Lowell once wanted to know, "What is so rare as a day in June?" We can tell him. A Democrat who knows how his party stands now, or is going to stand next year, on the tariff question is a good deal rarer than any June day that ever dawned.

**At a Large Discount.**
Ohio State Journal.]

The similarity between the trade dollar and the Democratic party seems to be that both are held at a large discount.

**And All the Other Commandments?**
From the Washington Post.]

"Thou shalt not kill" would be a good plank for the platform for all the parties in all the States."

Among a lot of Norwegians who arrived at Philadelphia the other day, was a tall blonde Viking with a fearfully long name, whose earthly possessions were contained in a huge iron-bound chest painted in many colors. On the lid the owner's name was painted, "Ragnild Endlesdatterlœistad," and his destination "Visconsin."

Capt. Hutchinson, of Los Angeles, Cal., who purchased twenty-six head of Devon cattle at Mr. White's auction here last week, shipped them to his place in two cars, at an expense about equal to the cost of the cattle here. The entire cost of the stock when delivered on his ranch will be something over $2700.—[Canaseraga Times.

**Well Said.**
From the Santa Ana Herald.]

The San Francisco Call of last Saturday contains two columns and a half of extracts from a few of the newspapers of the State, which, the Call says, "prove that the people are kindly disposed toward the new passenger tariff adopted by the votes of Carpenter and Humphreys, and that they feel these two commissioners are honestly striving to do their duty." We don't think it proves anything of the kind. These papers do not truly represent the sentiments of the people, because, on heavily, traveled routes there is no reduction, where it is most needed and desired, and where the benefits would be shared by a great number of people. On sparsely traveled lines there is a great show of reduction, but it will be of no benefit to the traveling public at large, nor will it affect, to any appreciable extent, the revenue of the railroad company. What the people of this State want, and they will never be satisfied otherwise, is a reduction that will be of benefit to the great mass of the traveling public; the greatest good to the greatest number. We do not and never have desired that our roads should be crippled, or that their efficiency should be in any way impaired, and it is useless to say that they would be if a liberal freight and passenger tariff were adopted. The Southern Pacific when it enters Texas must, under the laws of that State only charge three cents per mile. Why should they charge double that price in California? Simply because our Railroad Commissioners, though clothed with full power to order otherwise, allow the company to fix its own charges, as they have doubtless done in this late "reduction" business. The Call, in big type, heads the extracts alluded to "A Complete Vindication—The State Press on the New Passenger Rates." The Los Angeles Herald is awarded two extracts, in different columns, of this "Vindication," as is the San Jose Herald and the Oakland Times. We know of no Democrats in this valley who are "kindly disposed" toward Carpenter and Humphreys, and we personally know a great many of them. How much did the publication of this "Vindication" cost the railroad company? What a sham, a delusion and a mockery the so-called "reduction" is, anyway, notwithstanding the "Vindication" of the "leading" papers of the State, who misrepresent the people. The [Santa Ana] Herald hates frauds and shams, of whatever character, despises hypocrisy and deceit under whatever guise it may appear. If those papers who wear the railroad collar, or others who damn the monopoly with faint praise (for fear of losing a little patronage or their free passes) are content with their slavish position, so be it, but they should not falsely claim to represent the sentiments of the masses.

## CERTIFICATE
......OF......
## Water Analysis.

SAN FRANCISCO, September 18, 1882.
*For Mr. Victor Beaudry, Los Angeles:*
I have carefully analyzed the sample of water—marked as under—and find the following to be the proportions in every 100 parts:
[Mark of sample, Los Angeles.]
Solid residue, 29.16 grains per United States gallon.
Chlorine, 2.39 grains per United States gallon.
Ammonia (free and combined), .085 milligram per litre.
Albuminoid ammonia, .12 milligram per litre.
*The water does not indicate the presence of any injurious ingredient in abnormal quantities, and is a good quality of water for dietetic purposes. It is free from any sewage contamination.*
Respectfully submitted,
THOMAS PRICE, M. D.

NOTICE.
*To whom it may concern:*
I take pleasure to lay before the public the above certificate of analysis of the water from the
BEAUDRY WATER WORKS
knowing, as I do, that good pure water is most essential to the health of the consumer.

......AT......
$100, $200, $300, $400, $500, $600, $700, $800, $900.

**WATER SUPPLY.**
These lots are supplied by the purest of water, as may be seen by the analysis published above. The present capacity of the pumping machinery is 75,000 gallons per hour, or 1,870,000 in twenty-four hours.
*The source of supply is inexhaustible.* During last winter I laid 4000 feet of 8-inch cast-iron pipe. And I have just completed the laying of 4200 feet more of 8 and 12-inch cast iron pipe, and in a few weeks I will commence the laying of 4000 feet more of 8-inch and 12-inch pipe; also, will lay smaller sizes in considerable quantity, as they may be required.

**ALSO,**
1000 acres of best vineyard land, requiring no irrigation, in the San Rafael Rancho, only four miles from the city. Price, $50 to $60 per acre.
Also 700 acres hill land at $3 to $10 per acre.

## Why We Advertise.
FIRST—Because we want to let the people know that we have always been selling all goods at twenty-five per cent. less than any other house in the city.
SECOND—Because we warrant all goods as represented, and never resort to deception in order to make a sale.
THIRD—Because we have determined to make a still larger reduction in all
## Spring and Summer Millinery Goods,
As we are determined to close them out before the middle of July.
FOURTH—Because we are determined to do a big business, even during the "dull" season, and have adopted the motto of "quick, cash sales and small profits."
FIFTH—Because we have the largest lot of sea-shell and other shade hats in the city, and the people must have them cheap before they go to the seashore.
SIXTH—Because we must make room for the earliest and most fashionable stock of millinery for the FALL TRADE ever brought to this city.
SEVENTH—Because we carry the leading stock, of all sizes and colors, of warranted
**ALL-SILK RIBBONS.**
EIGHTH—Because we want the people to know that we do not keep cotton or mixed goods to palm off on unsuspecting customers as first class.
NINTH—Because we can offer, at prices that are below all competition, the best-assorted line of ladies', children's and infants'
**FURNISHING GOODS**
To be found in the city.
TENTH—Because we want all the ladies to call and see us and examine our goods and prices and compare with other houses in the same line of business.

### When the Hawk is on the Wing Let the Timid Dove Beware.

*To the Editor of the Times*—SIR: Owing to an article in your paper from "Buena Vista" of about the 12th of May last, it has been remarked by certain individuals that squibs don't amount to much. Well, perhaps they don't; but that reminds us of the story of an old man who found a rude boy in one of his apple trees, stealing apples, and desired him to come down, which the young saucebox plainly told him he would not do. Those of your readers who are familiar with the story will remember well what steps the old man took to bring him down, and to those who have not, suffice it to say that after he had used good words, with no avail, and had pulled up and thrown a number of tufts of grass at him, which only made the young rascal laugh, he then had recourse to something that had a more persuasive effect than good words or grass, and which soon brought the youngster down to beg the old man's pardon. So, in writing this article, we do not intend to fire squibs, nor have anything to do with grass, but we do intend to come boldly to the front with quiver and bow, though we do not mean to be personal, and have no wish whatever to wound the feelings or false pride of any who may be taken in our range.

Some months ago a number of prostitutes were removed from off Los Angeles street, in this city, by an action of the City Council, and it is presumable that said action was based on a legal right under the city charter for the abatement or abolishment of all nuisances within the city limits; and, if not by a legal right, then the Council had no right at all for said action, and if the charter gave them no right, and we were an attorney, and placed in the impecunious circumstances that, no doubt, some of the legal fraternity are, (no insinuation, gentlemen, that any of you are on the bedrock,) we would take up the case for one and all of those persons so removed, and most certainly this city would have to pay a bill for damage. And, again, a short time ago a petition was before the City Council, respectably signed by property owners and residents of Buena Vista street, praying that honorable body to speedily remove all persons engaged in prostitution on said street, and also prevent all such persons in the future from occupying places on the same. Said petition was acted upon and an order made by the Council instructing the Chief of Police to remove the nuisance complained of immediately. Well now let us see how near that order has been obeyed, if indeed it was intended to be obeyed at all, for to all appearances it does seem that it was not. And it does seem to us that it is like many other orders and ordinances to be found on the minutes of our City Council, not worth the paper and timethat it took to write them. We will name some of them presently. But allowing that the order was made in good faith with the people of Buena Vista street, then certainly somebody has been derelict in their official duty. On the night that said petition was acted upon, and the order made for the removal of said persons from Buena Vista street, a grand raid (if it be lawful to call it such) was indiscriminately made upon the habitués, both male and female, of the city at large, and they were pulled in to the number of dozens, and O! what a splutter and jollification there was a few days after over the hundreds and hundreds of shining shekels that had been raked in from the poor miserables to enrich the city's coffers or somebody's pockets, for it does seem to us that the raid was made more for the sake of the money there was in it, than to abate a nuisance. And when the misters and madams who were captured in that raid were being arraigned before His Honor he might have pertinently asked the question of their accusers, as it had been asked in olden time, without compromising his dignity in the least! "He that is without sin among you, let him cast the first stone at" them. It is true that on the night of that memorable raid there were a few of those persons complained of taken from Buena Vista street, and for a few days their places were closed up, but in less than a week they were reopened, and several new ones were added to their number. And now, gentlemen of the Council, has the Chief of Police ever informed your honorable body that he had faithfully executed your mandate, or have you taken any steps whatever to know whether he has or not? You were not elected to the honorable position you occupy to play hide and seek, or second fiddle to nobody, and if you had the law on your side in the Los Angeles street case, that law has not been repealed, and the people of Buena Vista street are as much entitled to your protection by the law as those on Los Angeles street, or elsewhere; and it is a well-known fact that if a petition for a like purpose for any street south of the courthouse were before your honorable body, that it would be acted on at once, and the star spangled brass buttons and blue would be on hand in full force, and not an hour's grace would be given, and the poor soiled doves would have to fly, even if those that had their wings clipt in the memorable raid were among them.

Then, gentlemen, in your official capacity act like men who have brains enough to set a steel trap or a hen on the side of a hill. The eyes of the people of Buena Vista street are upon you, and will hold you to a strict account for your stewardship. "Yes," says one member, perhaps a newcomer, "but where is this Buena Vista street?" "Well," says another, "Buena Vista is a street running up through what is called Sonoratown, where the people raise so many dogs and fleas, every family is expected to have from one to half a dozen of the former and legions of the latter." True, gentlemen, Sonoratown can boast of having all the dogs the law allows, and perhaps a few dozen more, and certainly it has as many fleas to the square foot as almost any place in the city, but it is about as hard to account for the tastes of some people as it is for the acts of a city council. And allow us to say that Buena Vista street can also boast of many very elegant residences and moderately fair business houses, and is fast improving, and when the grade is finished and the bridge across the river, it will be one of the most pleasant drives in the city, overlooking, as it does, all the new depot grounds and the country for miles away, and we can also boast of a very elegant and commodious public schoolhouse, which is only a few steps from our western line; but alas, how disgusting it is, and particularly so to the parents, to see our young lady folks wending their way to and from school, through the purlieus of prostitution; and yet we are told that our City Council cannot and will not take any steps to prevent it being so. No, gentlemen of the Council, that cannot be; it is your bounden duty as the guardians of this city, to guard the morals of the youth of this street and its environs the same as you would those of any other street; and if the City Charter confers the right on you to abolish nuisances, then why in the name of the Judge of all Councils would you hesitate a minute when a rightful request has been laid before you, to remove a nuisance so detestable and demoralizing as the one complained of? Teach those abandoned creatures that they cannot and shall not flaunt their lewd obscenities in the face of a civilized and respectable community. Let them go and sin no more, or retire to a more secluded place, and give our street the unstained meaning its name implies —Good View. In regard to those dead-letter ordinances that we made mention of a little way back, we will only call the attention of our city fathers to a few:

First—An ordinance against gambling.

Second—Leaving animals unhitched.

Third—Riding or driving at a break-neck speed, particularly over street crossings.

Fourth—That foolish and dangerous practice of scattering paper broadcast on the streets and sidewalks. In many places the city presents the appearance of an Indian rancheria after a big feast on mescal, much more than it does clean and well-kept streets.

Fifth—Obstructing streets and sidewalks. These are all well-framed and statutory ordinances and should be executed to the letter, and no doubt would be only for the incapacity and negligence of our police; and it is our opinion, and the opinion, too, of many others who pay heavy tax levies in this city, that if there were fewer aristocratic airs indulged in around headquarters and less visits paid to side shows and standing before those things in which we see ourselves as others see us, and a little more of something done in the right way towards earning the hard cash so easily pocketed on pay-days, that those large cobblestones that lie where the sidewalk ought to be, nearly opposite the Pico House, might be removed, and many other places aligning the streets might be put in better shape. So of Sunday mornings, when the people walk out to church, and to the picnic grounds, their senses might be regaled by the thoughts of a pleasant walk. And strangers and country people coming into the city would be loud in their praise of the elegant streets and sidewalks, (not of gold) asbestos, in the city of Los Angeles. In conclusion, notwithstanding we have been somewhat criticising in our remarks, we hope you, gentlemen of the City Council, will be assured of our highest respects for you all, and believe us when we tell you that we clearly see with our mind's eye, standing on a magnificent platform in the midst of our Council chamber, gleaming in the effulgent rays of its incandescent light, the lovely form of that most beautiful creature, the scales in one hand and her scepter in the other, and we distinctly hear you exclaim, *una voce, fiat justitia, ruat coelum.* And looking still a little farther in the background we plainly see the eager faces and stalwart features of a host of janizaries ready and willing to do your bidding.

BUENA VISTA.

### The Schoolhouse Question—A Clear Statement of the Situation.

*To the Editor of the Times*—SIR: It is a well-known fact that during the past school year the public schools of our city have been badly overcrowded. It is equally well known that during the greater portion of the year a number of children—at one time as high as one hundred and fifty—were excluded from the schools on account of insufficient school room. The parents of these children were promised that next year there would be ample room; that the Board of Education were about to build several new school buildings.

It is now within a few weeks of the opening of the schools for the ensuing year. What is the situation? Not a brick laid, not a nail driven in a new building; not even a plan adopted. The seating capacity of the schools has been reduced three hundred from what it was last year by the canceling of the lease of the rooms in the Normal building, and by the sale of the Bath street property. No room for three hundred children who were in the schools last year, and no room for three or four hundred more who have come here by emigration. There is a bare possibility that four rooms will be added to the Eighth street building in time for the opening of schools. If this is done it will give seatings for 200 pupils. But, even taking the most favorable view of the situation, there will not be less than 400 to 500 children excluded from the schools during the next term.

This is certainly a lamentable state of affairs—lamentable not only from an educational standpoint, but from a business one also. It affects the prosperity of our city. Who is responsible for this state of affairs? A plain statement of facts may show. Repeatedly, during the first half of last school year, by verbal and written reports, I called the attention of the members of the Board to the overcrowded condition of the schools, and to the necessity of selling the Spring street and Bath street properties to obtain funds to build new buildings. After many resolves and resolves, the lots were offered for sale. A cash offer of $30,300 was received. Dr. Kurtz and Mr. Gibson favored the acceptance of the offer, and urged the necessity of proceeding immediately to build. The "solid three" who rule urged delay, claiming that the Council would put in a liberal bid. The offer was neither accepted nor rejected, but the Secretary was instructed to re-advertise for new proposals. At the next meeting the offer was withdrawn. After weeks of delay the Council put in a bid of $31,000. It was moved to accept it. I called the attention of the Board to the fact that the Council had no available funds to pay cash down for the lot. I was sneeringly told by the President "that if they didn't pay for it they couldn't get it." After more delay the Council turned over to the Board $7000 from the salary fund; this was all that could be paid on the lot. With this, and $5500 received from the sale of Bath street, the Board bought the Haverstick property—four lots, two fronting on Spring and two on Fort street. This property, about the time that the cash offer of $30,000 was received for the Spring-street lot, could have been bought for $9500. The "solid three," by their masterly delay, got $700 more for the Spring-street lot and paid $3000 more for a new school site. A nice little problem in Profit and Loss!

The financial situation may be briefly summed up thus: The Board has sold $36,600 worth of school property; cash received, $12,600; paid for school site, $1250; attorneys' fees, $250; balance due, $23,850, payable possibly from taxes next November; amount in the treasury to build new school buildings, not a dollar.

Mr. Gibson, a new member of the Board, is energetic and anxious to do his duty.

Dr. Kurtz, an old member, is a true friend of the teachers and of the schools. He has visited the schools and examined into the work done in them, and is well satisfied with it. It is the misfortune of these gentlemen to be in the minority. My political principles are not in accord with those of the "solid three," therefore I step down and out of the superintendency. The success of the Democratic party in the next Presidential campaign depends upon the appointment of a Democrat as superintendent of schools in Los Angeles city. The appointment has been made. A Democratic victory is assured. "To the victors belong the spoils."

J. M. GUINN.

### Let Us Have Peace.

*To the Editor of the Times*—SIR: The five armed men who murdered Ben Avise, at the Mission, last Saturday, have all testified that Mrs. Avise drew her shotgun and fired the first shot at Kimball without any provocation. Let me suggest that these five peaceable characters have the widow Avise arrested for assault to murder, (I don't see why they haven't done it before this,) and ask for a preliminary examination, if it ain't just too indelicate, before Mr. *Justice* Ling.

A LITTLE MAN.

### The Prevalence of Suicide.

*To the Editor of the* TIMES—SIR: In view of the many successful and unsuccessful attempts at suicide in Los Angeles, I have been led to read with interest a recent lecture on the subject by Dr. L. L. Dow, Professor in Cooper Medical College, San Francisco. He says his conclusions are drawn from over 1000 cases that have occurred in San Francisco during the past twenty years, 350 of which he had personally investigated. The annual percentage of suicides in California is 26 in 100,000 inhabitants, while in New York City it is about 18 in 100,000 inhabitants.

"It has often been claimed that most suicides are necessarily insane. No idea could be more fallacious. The claim that illiteracy and suicide are in inverse proportion seems to be proven. For in the Southern States, where we find suicides low in number, the illiterate are more numerous; but when we approach any of the Northern or Western States, where suicides are many, the illiterate line is low."

My own observation has not been in accord with the above statement. The climate has something to do with it. Where people lead an easy, slow life, and lack the exhilerating influences of a northern or Pacific Coast climate, there we find the minimum of suicides. It is not the man with the sluggish circulation who commits self-murder.

"San Francisco is the most given to self-murder of any city of its size in the world." * * * "Eighteen per cent. of all suicides in San Francisco during four recent years were immediately caused by alcohol." * * * "As usual in American cities, the Germans and Irish always lead in the number of suicides."

My own impression has been that the Irish were not, as a rule, given to suicides, but not having statistics at hand, I cannot controvert the statement of Dr. Dow.

After much valuable information on the subject, the lecturer speaks of "prevention," and urges the adoption of a law similar to the one recently adopted in New York, by which the person who unsuccessfully attempts suicide is punished by imprisonment in the State Prison for a term not exceeding two years, or by a fine of $1000, or both. He also urges moral and religious training, and cites the comparative immunity of Catholics from suicides, and closes by two quotations, one from an English writer:

"We of to-day have learned to see in it not only a monstrous self-indulgence, but also an atrocious crime and an idiotic cowardice." * * *

The other from a French author:

"COWARDS commit suicide; *brave men* live on."

The lecture is well worth reading, and its author is certainly very opportune in his effort to lead the people of this coast to devise some plan for the prevention of this great crime.

### San Francisco Produce Market.

*Revised Daily for the Times.*

SAN FRANCISCO, July 12.

FLOUR—The inquiry is fairly active. We quote: Best city extra, $5@5 50; medium grades, $4@4 50; shipping superfine, $3 75@4 ₰ bbl.

WHEAT—So far since the holidays, business has not been very lively. Exporters are only taking enough to meet immediate wants, and though not anxious to pay over $1 55, are compelled occasionally to give $1 57½, which is considered an extreme figure. The range for milling is somewhat wide, say from $1 60 to $1 65. For choice parcels of old the latter price is paid with little hesitation.

BARLEY—Receipts are not coming forward freely, and the steady tone of the market is not disturbed. Feed of good quality is wanted at 92½c to a moderate extent, though holders are mostly asking a higher rate. If offerings are not pressed, it is not unlikely that a much stronger feeling will be developed. Brewing is quite firm, owing to a concentration of stock. Holders still ask as high as $1 12½, though we hear of sales at about $1 08¾.

CORN—Trade dull. We quote the following: California, $1 50¾@1 55 for large Yellow, $1 60@162½ for small Yellow. The asking figure for Nebraska is given at $1 50 ₰ ctl.

HAY—We quote as follows: Alfalfa, $6@9; Wheat, $13@14; Wild Oat, $11@13; Barley, $8@11; Mixed, $6@10 ₰ ton.

POTATOES—A good article finds prompt sale. Wharf prices range from 60c to $1 25 ₰ ctl.

BEANS—Are dull. We quote: Bayos, $5 50; Butter, $4 25@4 50, as to size; Lima, $3 12½; Pea and Small White, $3 12½; Pink, $4 25; Red, $4 ₰ ctl.

FRUIT—The demand is good and all descriptions meet with fair attention. The first Sweetwater Grapes of the season sold to-day at $1 50 ₰ box. We quote as follows for lots: Figs, 50@$1 ₰ box; Apples 40c@$1 25 ₰ box; Pears, 30@40c ₰ bekt, and 50@$1 ₰ box; Apricots, 60@75c ₰ box; Plums, 35@40c for common and $1@1 75 ₰ bx for good to choice; Currants, $5@6 ₰ chest; Raspberries, $9@11 ₰ chest; Strawberries, $7@10; Blackberries, $7@8 ₰ chest; Cherries, $8@14 ₰ chest; Peaches, 50c@$3c ₰ box and 35@60c ₰ bskt for common; Crawford do, $1 50 to $2 ₰ basket; Lemons, $9@9 50 ₰ box for Sicily; California Lemons, $1@1 50 ₰ box; Mexican Limes, $10@11 ₰ box; Tamarinds, 12@13c ₰ lb; Bananas, $1 50@2 50 ₰ bunch; California Oranges, $1 50@2 ₰ box; Tahiti do, $20@25 ₰ thousand; Pineapples, $7@8 ₰ doz.

BUTTER—Market quite steady for choice brands. We quote: Fancy, 25@26c; choice, 23@24c; fair to good, 17@21c; inferior lots from country stores, 15@17c; choice firkin, old, 20@22½c; do new, 22@25c; ordinary do, 17@19c; pickled roll, 24@26c; Eastern, 17@20c ₰ lb.

EGGS—Buyers have liberal stocks from which to make selections. We quote: California, 27@29c for good, and 25@26c for fair quality; Utah, 25@27c; Eastern, 24@26c; Farallone, 28c ₰ doz.

POULTRY—Light receipts justify a somewhat buoyant tone. We quote lots as follows: Live Turkeys, gobblers, 23@25c; do Hens, 21@23c; Roosters, $3@3 50 for old and $3 50@4 for young; Hens, $8@10; Broilers, $4@5, according to size; Ducks, $4@5 50; Geese, 1 50@2 ₰ pair.

GAME—In good demand. We quote: Venison, 11@15c ₰ lb; Doves, 75c@$1 ₰ doz; Hare, $1 75@2; Rabbits, $1 25@1 50 ₰ doz.

WOOL—Choice descriptions are in moderate demand. We quote:

| | |
|---|---|
| Choice Northern Free..... | 23@24c. |
| Choice Northern Burry..... | 17@19c. |
| San Joaquin and Coast, choice..... | 16@18c. |
| San Joaquin and Coast, inferior..... | 14@15c. |
| San Joaquin and Coast, year's clip.... | 14@15c. |

MEATS—Rates for whole carcasses from slaughterers to dealers: Beef—First quality, 7¼@8c; second quality, 6¾@7c; third quality, 5¾@6c ₰ lb, according to quality. Lamb—Spring is quotable at 5@5½c ₰ lb. Pork—Live Hogs, 7½@7¾c for hard, and 7@7¼c for soft; dressed do, 10¾@10¾c ₰ lb for hard grain Hogs.

**THE GLENWOOD**

A Summer and Winter Resort for Pleasure and Health.

*Riverside, San Bernardino County, Cal.*

THE GLENWOOD is universally recognized as one of the best and most attractive hotels in the State. It occupies an entire block of two and one-half acres, centrally located, with pleasant surroundings in the way of fruit and ornamental trees, flowers and shrubbery. Around the building, on both floors, are broad balconies, forming fine promenades, aggregating a quarter of a mile in length, part of which are encased with glass and trellised with vines. The sunlight reaches every room, and they are all easy of access from broad halls and balcony. Baths and closets, electric bells, and all the modern improvements to be found in a first-class hotel. Open grates and stoves afford opportunity for free when desired. Parlors, reading room, office and dining room all on first floor, spacious, sunny and convenient.

**Do we Sell Too Cheap?**

OR

**Are Our Prices Too Low?**

THE SYNOPSIS OF THE WAR.

A very few weeks ago the millinery of Los Angeles met in council and adopted the following resolutions:

"Resolved, That we, the milliners of Los Angeles, refuse to purchase goods of any San Francisco wholesale millinery firm that shall hereafter sell millinery to any firm not exclusively in the millinery trade."

The petition was sent to San Francisco and all millinery houses asked for their signatures—they all were forced to consent, with but one exception.

**THE AIM**

was to drive the PEOPLES' STORE from off the field. The aim was to close the San Francisco market against the PEOPLES' STORE. The aim was truly to cut off our supplies.

**We Say it is War Against the Peoples' Store.**

For have not Dry Goods Houses for the last fifteen years kept millinery? Have not milliners kept fancy goods and dry goods? We say, Milliners you are right; try your best to smother the ember, but you are too late—it is already a living coal. When we opened the PEOPLES' STORE we promised the Los Angeles public goods at right prices. Have we not kept faith? Have we not kept the double dealers down ave we not made reductions in every line? We admit that in our Millinery Department we many times sell goods at too low a rate, but the milliners charge as much too high as we do too low. We wish to see everybody do well and prosper. We are pleased when others advance, but when such high-handed methods are taken to squelch the PEOPLES' STORE, we are compelled to fight. We are now done with the San Francisco market, and hereafter will draw our supplies from other quarters. And now even as we write a telegraphic order for millinery is flashing over the wires, and we look forward with pleasure to place these proper values before our patrons.

**Mistaken Idea.**

The idea is advanced that the Grand Central Hotel excels all others in Los Angeles. It should not be, because, where others charge $15 to $26 for board and room per week, we ask $7 to $10. Again, how could we excel others when we give board along for $4 per week, when they charge $7? But here are facts which it behooves gentlemen and ladies to read. The Grand Central Hotel was built for the model hotel of Los Angeles. There is gas and water in each room; walnut furniture, spring beds and all modern conveniences. Our prices do not pay, but for sixty days meals will be 25 cents; board will be $4 per week; meal tickets will be sold at $4 50 for twenty-one. Rooms will be from 50 cents to $1 per night, and $3 to $6 per week. We invite custom, but it must be understood that only sober and respectable patrons will be entertained.

**Wellington Coal.**

Attention of the consumers of coal is called to the particularly excellent qualities of this coal for either steam, heating or cooking purposes. *One ton* of it is fully equal to *three cords* of wood. As a household coal for cooking or heating purposes it has no equal, selling for several dollars more per ton in the San Francisco market than any other coal imported for this particular use. This coal is for sale by all coal and wood yards. The undersigned is prepared to sell Wellington coal in carload lots of ten tons and upwards, from his coal bunkers or ships when discharging, at Wilmington, delivered anywhere along the line of the S. ## RUM AND REVOLVER.

**The Handy Pistol Again Brought into Play.**

**Charles Foster, in a Drunken Frenzy, Attempts to Shoot A. H. Judson—But Makes a Signal Failure of It—The Particulars.**

The use of the pistol and shotgun, as the means of righting real or fancied wrongs, is becoming alarmingly frequent in this county, and it is about time that public sentiment should show that we still have some respect for the sacredness of human life in our section.

Yesterday the third attempt at murder within a week took place, and, while it fortunately was unsuccessful, in view of the two previous tragedies so fresh in the public mind, it is another warning that the trifling with the law is beginning to have its effect, and the daily shooting scrape will soon become a regular feature of life in Los Angeles if our officials do not perform their duty.

Yesterday, at about 2:30 p. m., a reporter of the TIMES met Charles Foster, one of the proprietors of the Los Angeles Chemical Works, manufacturers of carbon bisulphide, at Slotterbeck's gunshop, in Temple block. The manner of Foster plainly indicated that he had been drinking, and in a somewhat excited manner he stepped up to the counter, and producing a diminutive pistol, asked for cartridges to fit it. Mr. Slotterbeck handed him a box, and Foster, after an examination, concluded they would answer, and requested credit for them for a few days, which Mr. Slotterbeck refused. He then put two of them in his pistol, and, stating that he was going to practice at shooting squirrels on his way home, left and walked down the street.

It seems that shortly after he met his partner, Mr. Reed, and together they went to Mr. A. H. Judson's office, in the McDonald block, where they entered into conversation with that gentleman, with whom they had had considerable business. Foster's condition was by this time such that he commenced using violent language, both towards Read and Mr. Judson, whom he accused of defrauding him. Finally the latter lost patience and told Foster to leave the office, to which he replied that he would do as he pleased, and continued his abusive language. Mr. Judson then forcibly ejected him from the office and returned to his desk. Shortly after the door opened and Foster rushed in with his pistol drawn and shouted, "Now I am going to shoot you!" Mr. Judson again caught him by the arm and threw him out of the office, closing the door. A few minutes later, as everything was quiet, Judson opened the door to see if Foster had left, when the latter, who was standing near the door, tears with his pistol in his hand, cried, "D—n you! I will shoot you yet," and fired, the bullet penetrating the door. A crowd gathered about, attracted by the shot, but Foster in his drunken frenzy waved his pistol in the air and threatened to shoot the first man who attempted to arrest him. He was finally secured, however, and taken to the police station, where a charge of attempt to murder was preferred against him. He was then taken to Justice Morgan's court, and after a brief examination was held to answer, bail being fixed at $500. As he failed to secure that amount, he was lodged in jail, and will probably remain there until his trial in the Superior Court.

Foster is a young man, and from recommendations from former employers in his possession, seems hitherto to have borne a good reputation. He was doing fairly well in his business, and, but for whisky, would have undoubtedly made a success. He declines to make any statement concerning the affair, and all the facts in the case will probably not come out until the trial.

**A Bad Accident.**

A man by the name of Samuel McKune had a bad fall from a trestle stretched across the sidewalk on Fort street, near Franklin, yesterday at noon. He was wheeling earth from the side of the hill and throwing it in the road, when he suddenly slipped and fell, striking the pelvis, and it is feared sustaining internal injuries. He was taken into Mrs. Dr. Higgins's office, close by, where the ladies gave him every attention, and soon by means of hypodermic injections and soothing applications, subdued the great pain from which he suffered. He was removed to the hospital in the afternoon, and if he receives proper attention will probably recover. McKune has been very unfortunate, as just about a year ago he fell from a building at Calico, and was so badly hurt that he was brought to this city and placed in the hospital, from which he was discharged only a few days ago, and now comes the second accident, which will lay him up for a longer period.

**Attempt to Commit Rape.**

Last September a complaint was made against a Chinaman, named Ah You, for an attempt to commit a rape on Marie Antonia Lopez, a Spanish girl about fourteen years old, but he could not at that time be found, having left town. On the night of July 4th, however, the girl's father discovered the Chinaman in the vicinity of Turnverein Hall, who seized him bodily and took him to jail. Yesterday he was brought before Judge Morgan and the case was tried. Mr. D. M. Adams appeared for the District Attorney, and Mr. G. Wiley Wells was associated with Judge King and B. Katz, Esq., in the defense. Despite the efforts of the defense to prove the general reliability of Chinamen, and the special virtue of this one in particular, he was committed in default of $500 bail to appear before the Superior Court.

**Agricultural Park.**

Messrs. McGinnis & Fawcett are now in charge of Agricultural Park, under a lease of five years, and Mr. Fawcett will be the resident manager. At present the track is in good condition, and soon the stables will be ready for all applicants. Twenty more stalls will be immediately put in, and other needed improvements will be made. At present there are at the Park Col. Slaughter's stable of five trotters and runners, Charlie Thomas's stable, Joe Bridger's stable (from San Bernardino) of runners, John J. Reynolds' stable of eleven trotters, Charlie Durfee's stable of sixteen trotters, part of them the H. M. Johnston stock, and a stable from Bakersfield. The stalls are nearly full, and there is a constant demand for more room.

**Gambling.**

Chief Cuddy made a raid on Thursday night on the poker-players who have been in the habit of nightly congregating in the saloon under the United States Hotel, and the city treasury was made $100 richer thereby. Let the work of reform go on and some of our larger gamblers in more conspicuous neighborhoods be pulled. Faro is as bad as poker.

The question of allowing Mr. York $500 for the grading he has done on Bunker Hill avenue, will come up before the Council to-night. The people have all paid 72 cents per front foot for the grade and the money is now in the city treasury, but they want to see it disbursed properly.

Mrs. Mary Jane White, of Silex, Lincoln county, Missouri, writes to Postmaster Dunkelberger to know the whereabouts of her brother, Henry C. Curry, whose relatives formerly lived at Rushville, Schuyler county, Illinois. Any information will be gratefully received by Mrs. White.

The stairway to the Superior Court rooms will hereafter be on Commercial street, instead of on Main street, as formerly. The alterations in the building make this change necessary.

## COUNTY LICENSES.

**Views of a Supervisor on the New Ordinance.**

A reporter of the TIMES met a prominent member of the Board of Supervisors last evening and asked his opinion concerning the new tax which a Democratic administration has in its wisdom placed upon the business men of this State. The member admitted the incongruities which exist in the ordinance, but pleaded that the Board has taken this action because during the next three months the measure will be fairly placed before the people, and an opportunity afforded to obtain correct information as to the amount which should justly be levied upon each class of business, when the ordinance is revised on the first of October.

The county government bill passed by the last Legislature renders it obligatory upon Boards of Supervisors to fix county license rates on the first of October of each year, but they *may* fix them earlier if they see fit. The Board concluded that the term of three months would be a sufficient time for the people to consider the matter, allow the Board to gain information, and, speaking for his associates, our informant stated that all petitions and protests from persons interested will receive careful attention.

As to the necessity for the ordinance, there seems, at least in this county, no especial need for it. Ample funds to carry on the county government can be raised without it, although the failure of the railroad to pay its taxes for the last three years has crippled the schools in some portions of the county. One of the worst features of the bill, in the opinion of our informant, is that it provides for double taxation. A farmer who invests his money in land, agricultural machinery or in stock has to pay only one tax on his property, but the merchant and manufacturer have not only to pay a regular tax, but a special one is also imposed by the State. Much dissatisfaction is expressed on every hand at the ordinance, and it will undoubtedly be impossible to frame one which will meet with favor. But the people should carefully consider the matter and be prepared to influence the Supervisors when the time comes to revise the rates just established.

And they should and will kick with lusty kicks against the appointment of a License Tax Collector, without authority of law, to collect these licenses, receiving therefor ten per cent. of all sums collected. That feature of the ordinance is wholly unwarranted.

**Business Changes.**

The firm of D. K. Houghtelin & Co., dealers in fish, game and poultry, has dissolved, and is succeeded by Dewey & Arey.

Mr. G. W. Peachy has bought out the stock of harness, saddlery, etc., owned by the late A. W. Heinsch, and will remove to his new location about the first of August. The store he at present occupies has been taken by Polaski Bros., and their old store will shortly be refitted up and taken by the Farmers' and Merchants' Bank.

Messrs. Newmark & Co. having removed to Nos. 5, 7, 9 and 11, Los Angeles street, one room of their old store is to be occupied by Harrison & Dixon, a San Francisco wholesale firm, dealing in wood and willow ware, and the other by a Mr. Percival, late from Covington, Ky., who intends to open a hardware establishment.

The establishment lately occupied by the Grange Store is being rapidly fitted up by Messrs. Messing & Baum, late of San Francisco, for a dry goods and fancy goods establishment, and quite a number of offices in the new buildings have been rented in advance.

## AN UP-COAST TRIP.

**From Los Angeles North to the Rio Santa Maria.**

**Notes by the Way—Crop and Other Items—The Towns and Settlements Passed Through—From Paradise to the New Jerusalem.**

I left Los Angeles on June 8th, and passed through the beautiful valley, with its fine fields of grain looking far above the average. Farmers were all busy cutting their barley and stacking their hay. It was an assuring sight for the prospects of Los Angeles.

San Fernando Valley was next traversed. It was then a vast field of wheat and barley, all looking as if it would make two-thirds of a crop. At the Encino Rancho there is a little stage station with a good public house, called the Traveler's Retreat, conducted by Mr. Charles Foster, a bachelor landlord, but a good and genial host, with whom I put up for the night. Most of the wood used in your city comes from here, and it is quite an industry.

After driving about twenty miles next morning, I arrived at Newbury Park, another stage station, with a postoffice and hotel. It is situated in a beautiful valley, surrounded with good crops.

My next stopping place was El Conejo Rancho, containing some 50,000 acres, with a large valley, the most of it being farmed. The grain looks well, but in places is not well protected from the north wind and is a little scant. Springville, the next stopping place, is situated in a large valley and the principal crop is beans, with every prospect of a good yield.

Pleasant Valley is next reached. In this valley there are about 25,000 acres of rich soil, all under cultivation. This little valley is supplied with water from artesian wells, which runs in ditches and flumes for about nine miles. This is the property of Mr. J. C. Hartman, and by this means the whole valley can be irrigated. The principal crop here is beans, with a strong sprinkling of barley and wheat.

After staying in this section two days, I made a trip to Hueneme. I found it to be a thriving little town, situated in the Santa Clara valley, about twelve miles southeast of San Buenaventura, and being on the ocean, is the shipping point of this section, having a good wharf and other facilities. Last summer there was shipped from here over a half million bags of grain and 1800 bags of wool, and this season there will be at least one third more. Here is the beautiful residence of Thomas R. Bard, Esq., which adds much to the attractions of the neighborhood. New Jerusalem was the objective point of my next pilgrimage, and though the name has a sacred sound, yet I have no doubt many men have been crucified at this cross-roads station. The town consists of one store, a blacksmith shop and seventeen groggeries. The surrounding country is fine and settling up rapidly. Crops look well and a large area has been sown.

In traveling towards Ventura I found harvesting in progress and headers in every direction.

San Buenaventura is an enterprising town, containing more beautiful homes than any other place of its size in Southern California.

After a pleasant stay of four days I went to Nordhoff, better known as the Ojai, where they have good hotels, a store, a postoffice and a blacksmith shop.

On returning to Ventura I thought I would make a raid on Ed Sheridan's office, but found he had gone fishing, leaving the Signal in charge of his brother, who was acting as fighting editor. Knowing him to be a bad man, I concluded I would go to the other office and see my old friend McLean, whom I found laid up with rheumatism, but he had hopes of soon getting around.

Carpinteria was my next stopping place. This is famous for its beans and corn, and raises large crops. I stayed here several days and then made a call at Santa Barbara, which I found not too lively. Many parties are out camping, yet the hotels are by no means empty. Col. Hollister is fitting up the old College building for a hotel, the present accommodations of the Arlington being inadequate.

Considerable interest was taken by the Lompoc people in the trial of one of their number charged with helping to pull down a saloon over there. That town was the next in my pilgrimage, and I found great improvements, all made in the last eight years. New residences and new churches give it a bright appearance, but the little people whom I knew eight years ago are now young ladies and young gentlemen, and I feel that old age is creeping on apace. Near here are two wharves, one at Point Arguello, twelve miles off, and the other is the old Lompoc wharf. At the latter place Mr. Rule, formerly of Santa Ana, is superintendent. Last summer there were shipped here 6000 tons of grain, besides 4000 hog
